Lodging

Dormitory style cottages

Each cottage can sleep between 60 and 64. A small meeting room is located in the front of the cottage. Each side has one small and one large bathroom.

Ross Bonar Cottage

This unique cottage is divided into ten rooms that sleep a total of 68. The bunk beds are removed during the winter months and replaced with 34 single beds for adult groups.

Two meeting rooms are available in the cottage with seating for about 35.

"Boone" Maxwell Lodge

Sleep in air-conditioned comfort in our motel-style lodge.

Each room has double beds and individual baths. Two 70' x 48' meeting rooms with seating for 200 and a small kitchen are located below the sleeping rooms on the ground level.

Meals

The Dining Hall serves cafeteria-style meals for groups as small as 25 or as large as 300.

Breakfast, Lunch, and Dinner can be served each day during camps, or our cooks can prepare a continental breakfast, snack, or banquet for meetings and special events.

Meals can also be catered to one of the conference rooms in the Lodge, for your convenience.

Several menu options, including a salad bar, are available. Please let us know if your group has special dietary needs so that we can accommodate them.

Adjacent to the seating area in the dining hall is a meeting room, which can be separated by a divider curtain. It's an ideal space for a medium-sized gathering!
